

BUSINESS GRANTS AVAILABLE NOW

Since 2018 Community Led Local Development has provided over £7.5 million in EU Funding to more than 140 businesses and organisations across Cornwall helping them deliver sustainable growth and real economic benefits to their local areas.

We know times are tough currently, but we also know that there are businesses planning for the future. We're looking to support more Cornish businesses with our remaining budget to help them deliver growth and offer more employment opportunities for local people.

You may be surprised at how many business costs are eligible for funding. We've listed just a few below...

Mobile Assets

We've supported the purchase of cutting-edge hardware for businesses, allowing them to increase efficiencies & take on larger and more profitable commissions.

Construction & Workspace Renovation

We've provided grant support for equipment, such as office furniture & furnishings, and funded refurb projects to create new co-working and training spaces.

Plant & Machinery

We've enabled investment in new production machinery which has led to increased efficiency and the expansion into new markets.

Interested? The grant process is simple.....

1

Think about which part of your business could deliver growth with our funding support

2

Contact James for an informal chat around how we can support your plans

3

Complete your application with James's help and submit it for decision

4

Receive your grant offer, if successful, deliver your plans and reap the rewards of enhanced business growth and sustainability

Business grants of £10,000 and upwards are available for Cornish businesses in specific target areas. These grants are from our remaining European Regional Development Funds (ERDF) so they won't be around for ever, especially as we approve more and more projects.
